## The Art of Nature

Spice village is a work of nature as much as it is a lofty expression of the imagination. We conceived the resort as a village and approached its building the way you would a village - with local materials, native artisans, mountain spirit and traditional wisdom in its creation. Though traditional in its conception, this is a 'village' that offers you all the comforts of a city minus the noise, pollution and other urban ills that you can do without.

Periyar Tiger Reserve boasts a variety of forests, marshes and aquatic habitats spread over 925 Kms. Together they constitute the abode of a great variety of wildlife that includes 62 species of mammals, 320 species of birds, 27 species of amphibians, 45 species of reptiles and 38 species of fish
